What is Royal Blue Tea?

Royal Blue Tea is an exciting new product: the world's first luxury bottled tea. Our mission is to provide a non-alcohol option that can compete with the best of wine and champagne. As with wine or champagne, Royal Blue Tea can be paired with fine cuisine for a unique and sumptuous dining experience. Our products are currently served in the first-class section of Japan Airlines and at over two hundred high-end restaurants and hotels throughout Japan. Royal Blue Tea is produced using an innovative new version of the Japanese *mizudashi* technique, whereby the tea leaves are infused in cold water for three to seven days. We do not use any artificial additives or preservatives. Our teas contain just two ingredients : the highest quality, hand-picked tea leaves and fresh, cold water.

Common Specifications

Non-Alcohol Tea beverage, *Place of origin(Bottled tea)* ROYAL BLUE TEA JAPAN CO., LTD 750mL/bt. Ingredients /Tea, Keep chilled, Placed vertically, Made in JAPAN

Attention
